

IZVEŠTAJ O ODABRANIM PROJEKTNIM AKTIVNOSTIMA - DECEMBAR 2020

Nabavka ICT opreme

Pod Projektom Unapređenje zemljišne administracije u Srbiji (REMP) izvršena je nabavka ICT opreme u vrednosti od 3,180,000 Evra. Nabavka opreme je za cilj imala da se obezbedi oprema koja će podržati implementaciju *Informacionog sistema za katastar nepokretnosti* (ISREC). Dana 19. novembra 2018 godine je objavljen međunarodni tender za nabavku ICT opreme pod brojem SRB-REMP-8486YF-ICB-G-18-102. Poziv za dostavljanje ponuda je objavljen u Republici Srbiji u dnevnim novinama sa nacionalnom distribucijom, i na sajtu RGZ-a, a međunarodno je oglašen na web sajtu United Nations Development Business (UNDB). Rok za dostavljanje ponuda je bio 31.12.2018 godine.

Naručene oprema je isporučena u roku (do početka juna 2019.godine), a sertifikat o isporučenoj robi je izdat 7.6.2019. godine.

Nabavljena je sledeća oprema (detaljan spisak je dat u prilogu).

| Naziv | količine |
|---|-----------------|
| Servers | 7 |
| Application Servers | 2 |
| Virtualization software | 18 |
| System for database implementation | 1 |
| Backup and Recovery software solution | 1 |
| Backup and Recovery solution – Backup devices | 2 |
| SAN Storage System | 1 |
| Firewall | 2 |
| Load balancer | 2 |
| L2/L3 Access Switch | 2 |
| Top of the rack switch | 3 |
| Personal Computers | 600 |
| Monitors | 600 |
| LaserJet Printer A3 Color | 20 |
| LaserJet Printer A3 | 40 |
| LaserJet Printer A4 | 330 |
| Color Flatbed Scanner (A3) | 100 |
| ADF High Speed Scanner (A4) | 75 |

**Lista distribuirane opreme je data u prilogu „[Distribuciona lista.xmlx](#)“*

Distribucija nabavljene robe obavlja se fazno i prema planu koji je napravio RGZ u saradnji sa Sistem integratorom (konzorcijum koji vrši razvoj faze 3 softvera za ISREC) koji je pripremio tehničke zahteve za

hardversku infrastrukturu potrebnu da podži ISREC a na osnovi analize postojećeg stanja opreme u RGZ i očekivanih budućih potreba.

Razvoj ISREC -a

Razvoj ISREC-a je podeljen u tri faze da bi se smanjili rizici koje nosi razvoj velikih ICT sistema. Te faze su:

Faza 1. Dokument Menadžment Sistem (DMS)

Faza 2 Adresni Registar (AR) i Registar Prostornih Jedinica (RPJ)

Faza 3. Održavanje katastra nepokretnosti

DMS je uspešno implementiran i pušten u rad u svim službama. To je ključni deo za administraciju celokupnog sistema čiji su osnovni delovi:

- Upravljanje tokom dokumenata
- Administracija sistema
- Administracija korisničkih prava
- Prihvatanje korisničkih aplikacija

Od 07.10.2019. (ugovor br. SRB-REMP-8486YF-NCB-TS-19-139), DMS je u fazi održavanja i optimizacije.

Kako su faza 2 i faza 3 u razvoju sa vremena na vreme je potrebno, testiranja radi, omogućiti razvojnim verzijama softvera faze 2 i faze 3 privremenu integraciju sa DMS sistemom. Ta testiranja se uglavnom obavljaju van redovnog radnog vremena pa samim time ne utiču na performanse DMS-a. Međutim, na performanse DMS-a jako utiče internet sobračaj te dolazi do povremenih usporavanja komunikacije sa centralnom bazom podataka. RGZ tim uz podršku izvođača nastoji da probleme otklanja u najkraćem roku.

Aktivnosti na razvoju faza 2 i 3 ISREC-a se prate na dnevnom nivou, izveštaje pripremaju i izvođači i naručilac posla, kao i firma koja je angažovana da prati razvoj sa pozicije osiguranja kvaliteta (Quality Assurance and Quality Control).

ISREC je kompleksan sistem i njegov razvoj i implementacija nose brojne izazove i teškoće. RGZ kontinuirano radi na poboljšanju DMS-a u skladu sa informacijama prikupljenim od službi za katastar nepokretnosti, preporukama Ministarstva građevinarstva, transporta i infrastrukture, i tehničkog tima Svetske Banke. Takođe, aktivno se radi na završetku razvoja ISREC-a kako bi se sa implementacija okončala do kraja 2022, što je rok za završetak projekta.

Digitalizacija katastarskih planova

Na digitalizaciji katastarskih planova se aktivno radilo pod Projektom za katastar nepokretnosti u upis prava (broj kredita 3908-YF) i nastavilo se pod REMP-om. Svi katastarski planovi su digitalizovani, a kroz dve aktivnosti podržane REMP-om radi se na poboljšanju kvaliteta i ispravkama – softver za pregled DKP-a (ugovor br. SRB-REMP-8486YF-Sh-G-16-065 od 9.6.2017.godine), i unapređenje kvaliteta podataka (Data Quality Improvement, ugovor br. SRB-REMP-8486YF-QCBS-CS-16-049 od 24.01.2018.godine). Sa završetkom faze 3 ISREC-a formiraće se jedinstvena centralna baza katastra nepokretnosti u kojoj će se održavati KN (grafika i alfanumerika) na jednom mestu za celu teritoriju Republike Srbije. Do tada RGZ nastavlja da radi kroz više baza uz sve teškoće koje takav sistem donosi u održavanju kvaliteta podataka.

Satelitski snimci

Kroz REMP je izvršena nabavka satelitskih snimaka (ugovor br. SRB-REMP-8486YF-DC-G-16-035 od 5.5.2016.godine) u svrhu uspostavljanja Registra objekata u Republici Srbiji, a u cilju uspostave sistema za masovnu procenu vrednosti nepokretnosti i fiskalni katastar. Podaci registra objekata koriste se i u postuku ozakonjenja, ali sam REMP ne finansira rad na ozakonjenju. Zakon o ozakonjenju objekata (https://www.paragraf.rs/propisi/zakon_o_ozakonjenju_objekata.html#) u članu 6 definiše ozakonjenje na osnovu satelitskih snimaka iz 2015 te je nabavka koja je rađena pod REMP-om uključila arhivske snimke iz 2015-te i to sve one koji su ispunjavali zahtevani kvalitet, a tamo gde nije bilo takvih snimaka nabavljeni su novi iz snimanja 2016. godine. Sredstva za nabavku satelitskih snimaka su bila ograničena, i nabavljeni su snimci onog kvaliteta koji je mogao tim sredstvima biti plaćen. Bolji kvalitet od onoga koji je nabavljen je naravno postojao ali je on bio višestruko skuplji (2-4 puta).

Indikatori uspešnosti projekta

Uspešnost implementacije projekta se prati kroz aktivnost „Praćenje i ocena“ ključnih indikatora koji su definisani u dokumentu „Dokument procene projekta“.

Postoje četiri indikatora za praćenje napretka projekta u dostizanju razvojnog cilja projekta:

- Efikasnost: skraćeno vreme za upis transakcija;
- Transparentnost: pravila, postupci, metodologije i informacije su široko i lako dostupni, uz postojanje postupaka pomoću kojih javnost može da proveriti svoje informacije;
- Dostupnost: otvoreni podaci su dostupni opštinama za dalje korišćenje;
- Pouzdanost: javnost ima poverenje u kvalitet podataka o nepokretnostima.

Ovi indikatori i njihovi podindikatori prate implementaciju Projekta na tromesečnom nivou i na osnovu njih se ocenjuje napredak i uspešnost implementacije. Za sada indikatori pokazuju da se projekat odvija prema planu implementacije

<http://documents.worldbank.org/curated/en/482381575919403014/Disclosable-Version-of-the-ISR-Serbia-Real-Estate-Management-Project-P147050-Sequence-No-09>

Efikasnost na Projektu se meri skraćivanjem vremena za upis sekundarnih transakcija – kupoprodaja, nasleđivanja i poklona. Osnovni indikator je prosečno vreme za upis sekundarnih transakcija iz 2015 godine a po Doing Business Report (DB) Svetske Banke. Tada je prosečno vreme za izvršenje transakcija bilo 48 dana, a cilj je bio da do kraja projekta uz uvođenje ISREC-a treba da doprinese da se upis kupoprodajnih transakcija završava za prosečno 4 dana. Projekat prati poboljšanje vremena upisa za nove transakcije, dok se zaostali predmeti prate posebno. Od 1. 1. 2021. sve transakcije će ići kroz notare i e-šalter (Zakon o postupku upisa u katastar nepokretnosti i vodova,

<http://www.parlament.gov.rs/upload/archive/files/lat/pdf/zakoni/2018/686-18%20lat.pdf>). Kako se REMP završava 31.12.2022. može se očekivati da se zaostali predmeti neće moći svi rešiti za života projekta već će se na njihovom rešavanju morati aktivno raditi i posle 2022.

Korišćenje iskustava drugih zemalja

RGZ se u implementaciji projekta u velikoj meri oslanja na iskustva drugih zemalja. Obavljen je određeni broj ciljanih studijskih poseta (Rusija, Danska, UK, Holandija, Severna Makedonija). Takođe se kroz projekat uključuju i konsultanti iz USA, Evrope i neposrednog okruženja. RGZ i Ministarstvo građevinarstva, transporta i infrastrukture su se u implementaciji sistema e-dozvole, elektronskog katastra i izmena zakonskog okvira koristili iskustvima Severne Makedonije koja je uspela reformama u ovim sektorima da značajno popravi svoje poslovno okruženja i, posledično, svoje rangiranje na DB listi.

RGZ će nastaviti da koristi ova iskustva i nastaviće da nastoji da kroz projekat aktivno uključi stručne ljude iz okruženja sa relevantnim iskustvom koji žele i mogu da pomognu da se RGZ transformiše u

modernu, finansijski održivu instituciju okrenutu pružanju kvalitetnih usluga građanima i javnom i privatnom sektoru. Rad na institucionalnoj reformi RGZ-a je na samom početku, podržan od strane nadležnog Ministarstva i Vlade Republike Srbije. To je dugotrajan i kompleksan proces koji se mora voditi kroz aktivno učešće svih relevantnih institucija i uz konsultacije sa korisnicima RGZ usluga.
